ACKNOWLEDGEMENTS

Work on the Directory was initiated in the summer of 1981 by summer student Gerald Thickfoot, who compiled the form letters and mailed them to existing libraries for updating of the previous publication.

Gail Singleton surveyed new libraries, then typed changes and new entries from the data received. She also compiled the final copy.

Marlene Lavallee helped type and check some entries.

Annemarie Layman, a summer student in 1982, aided in compiling indexes and Debra Wasylik proofread the final copy.

Many thanks to everyone who took the time to complete the survey or update their previous entry.

Any discrepancies or suggestions for changes in the next issue will be gratefully accepted at the Branch. As well, notification of inclusions or deletions should be directed to the office. Please note the addition of a Survey Form at the back of this book.

INTRODUCTION

This fourth edition of the Directory of Libraries in Manitoba is an expanded listing of the libraries in our province (excluding school libraries —which are listed in the Directory of School Media Personnel issued by School Library Services, Department of Education). This publication is based on data collected in the summer of 1981.

The Directory is a classified arrangement by type of library, with alphabetical, subject, language and geographical indexes. The entries are as complete as the information submitted by each library. In most cases, the entry gives the name of the library, its address, telephone number, Telex (if any), the person in charge, collection statistics, and whether or not the library participates in interlibrary loan. It also indicates if the collection is catalogued, language holdings, any special collections, the population served and the year founded. The library materials budget* is shown for those libraries which reported it. All references in the index are to the entry number. Please phone or write individual libraries for their definition of restricted and limited service.
